

[COASTAL COMMUNITY] PHOTOVOICE INSTRUCTIONS

Photos should answer
the question:

**When it comes to
[this place],
what do you
care about most?**

TIMELINE

Over the next two or so weeks, you will take between 5 and 15 different photos of [this place] – the places where you enjoy spending your time, the activities you do while there, and the characteristics that make it a special place for you. Each photo should be accompanied by a short, descriptive caption.

During this period of photo taking, I'll contact you once or twice with a reminder to share your photos with me by email, text, or upload. We will discuss the photos you took during our interview, which will take place via Zoom or, if conditions permit, in person.

YOUR PHOTOS COULD INCLUDE IMAGES OF:

- Beaches, homes, walkways
- Water, animals, plants
- People visiting, recreating, working
- Different times of the day or night

Photos can be literal (i.e. photos of a particular area of the beach) or symbolic (i.e., photos of quietness or solitude). Be creative!

EVERY PERSON SHOULD INCLUDE AT LEAST ONE PHOTO OF:

- A physical location or natural feature in [this place] that is special to you
- An activity that you enjoy doing in [this place] , either by yourself or with others
- Something that recalls a memory or experience in [this place]
- Anything that you might be concerned about in [this place]

IMPORTANT NOTES

- Photos should not include details that can identify you or others
- Your safety comes first! Please do not do anything you wouldn't normally do (such as stand in a risky place) to capture an image
