<b>CRANBERRY MEADOW</b>		
<b>TOWNS:</b> Berwick		
<b>WATERSHED:</b> Driscoll Brook Headwaters (Salmon Falls River)		
	<b>CORE AREA</b>	<b>SUPPORTING LANDSCAPE</b>
<b>SIZE</b>	427 acres	954 acres
<b>SIGNIFICANT ECOLOGICAL RESOURCES</b>		
<b>Forest Ecosystem</b>		
Area w/in undeveloped habitat block	423 acres	778 acres
Area w/in unfragmented forest block	350 acres	317 acres
<b>Freshwater Systems</b>		
Undeveloped stream reaches	16	9
River & stream miles	4 miles	1.6 miles
<b>Significant Wildlife Habitat</b>		
Inland wadingbird and waterfowl habitat	none mapped	1 acre within supporting landscape
Tidal wadingbird waterfowl habitat	n/a	n/a
Deer wintering area	1 mapped DWA 106 acres in core area	113 acres extend into supporting landscape
Significant vernal pool	none mapped	none mapped
Shorebird feeding / roosting area	n/a	n/a
<b>Significant Plant &amp; Animal Occurrences</b>		
Rare plant populations	none mapped	
Rare animal populations	none mapped	
Rare natural communities	none mapped	
Exemplary natural communities and ecosystems	none mapped	
<b>Water Supply</b>		
High yield aquifer	none mapped	
Wellheads and wellhead protection zones	Two public water supply wells occur in the northeastern portion of this CFA	
<b>CURRENT CONSERVATION STATUS</b>		
Permanently Protected, Managed as natural area or ecological reserve (GAP 1 & 2)	333 acres	350 acres
Permanently Protected, Managed primarily as working forest (GAP 3)		
Not permanently protected, but in public or institutional ownership (GAP 3a)		
<b>RELATIONSHIP TO OTHER PLANS</b>		
Area identified in other planning initiatives
